

# TRILITE

BATTERY OPERATED PORTABLE LIGHT

with Motion-Activate Technology

Available in wide range of colours

# TRILITE

an innovative lighting solution designed to elevate your everyday experience. It is our state-of-the-art "Make in INDIA" 3AAA battery-operated sensor-based versatile light. Trilite offers energy-efficient and automatic illumination, enhancing safety and convenience in any environment. Its motion sensor technology ensures hands-free operation, while selectable colors and CCT enable personalized usage.

## Convenient and Portable

The 3AAA batteries offers the advantage of portability. Trilite can be placed or moved without need for electrical outlets or wiring. Whether it is a closet, cabinet, or any closed area, this light can be effortlessly installed and repositioned as needed.

## Motion-Activate Technology

The significant advantage of Trilite is its Motion-Active technology. This motion-based sensor detects movement within its range and automatically turn on the light. This eliminates the need for manual operation and ensures that the light is only active in presence. It enhance convenience and saves energy.

## Wide range of colours and CCTs

Trilite comes with choice of 8 beautiful colors and more than 9 CCT'S as 2200K/2700K/3000K/3500K/4000K/5000K/6500K/8000K to cater to different preferences and lighting needs. This customization allows you to optimize the light's performance based on exact requirements.

## Cost-Effective Solution

Trilite offers a cost-effective solution for lighting needs. With its energy-efficient design and battery operation, you can save on electricity costs. It also eliminates the need for costly installation or maintenance.

## Energy-Efficient

The sensor-based light in Trilite is designed to be energy-efficient. It manage the utilization of batteries by illuminating when needed, thus conserving the power. This feature ensure longer battery life as well as providing the light when needed.

# TRILITE

**Application of Trilite:** Wardrobes and home closets, Under cabinets, Kitchen cabinets, Shelves, Drawers, Home Lockers / Tijori / Safe deposit box, Staircase, Shoe racks etc.

## Technical Specifications

**Material:** ABS with built-in magnets for installation on any metal surface

**LED Qty:** 3 LEDs [ 2835, Bridgelux USA]

**Sensor Type:** Motion Sensor

**LED life:** 50,000 working hours.

**Power supply:** 3 X AAA batteries (not included)

**Power:** 1.0W

**Light color:** Warm white / Daylight / Cool white

**Sensitive Angle:** 120 degrees

**Super sensitivity:** 1 to 3-meter Distance

**Operating temp:** -20° C, ~ + 40° C

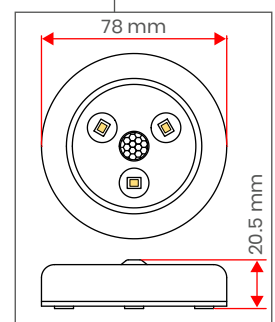

**Light-emitting delayed time:**  
16-20 seconds

**Size:** 78 mm x 20.5 mm

## Package includes:

1\*Motion Sensing Light (Battery not included)

1\*3M double-sided adhesive plate (optional)  
[ non-metal installations]

Manufactured and distributed by:
